

Explore the Innovative Critical Communications with Inrico at Intersec Dubai

Nov.27.2024

Dubai, United Arab Emirates - January 14-16, 2025 - Inrico, a world-leading PTTToC radio for critical communications, will showcase its innovative and advanced communication solutions at Intersec Dubai 2025, which is the largest and leading security show in the Middle East.

At Intersec Dubai 2025, Inrico will be partnering with [Abdulrahman AlShareef Group](#) (AAG) to deliver a hands-on experience that highlights the power and versatility of their communication solutions. Inrico will show a robust lineup, featuring mission-critical series IRC590, IRC380, and S350; business-critical series T330/T338, S380, S300Plus, S300Pro, and so on.

Key highlights from Inrico's exhibit include:

- The [IRC590](#), a military-grade PoC radio, combines IP68 protection and compliance with the MIL-STD 810H standard, ensuring seamless communication even in the harshest environments.
- The [IRC380](#) enhances operational efficiency with its dual PTT button, enabling effortless narrowband-broadband switching. Its one-click toolbox minimizes disruptions, keeping teams focused on their tasks
- The rugged smart PoC radio [S350](#) is designed to meet the rugged usage needs of critical communications in multiple environments via a 5G network to make team members and completing dispatch coordination easier.
- The [S300Pro](#), equipped with a barcode scanner, delivers efficient and stable performance, making it a practical tool for improving productivity. It is well-suited to support industries such as logistics and warehousing, helping streamline operations and enhance workflow efficiency.
- With a professional and stylish appearance, [T330/T338](#) features a large full-digital keypad, supporting both phone calls and radio communications, effectively balancing the needs for voice calls and two-way radio.

This collaboration will integrate Inrico's advanced technology with AAG's communication & electronics expertise and iConvNet's convergent capabilities, delivering tailored communication solutions to meet the unique requirements. Join us at Booth SA-I31 from January 14-16, 2025, let Inrico empower your safer and more reliable communications!

About Inrico

INRICO is a leading innovator in push-to-talk-over-cellular (PTTToC) technology, offering advanced terminals, multi-mode radios, dispatch software, and deployable systems, widely adopted across industries. With 20% of revenue reinvested in R&D and nearly 60% of its workforce dedicated to innovation, INRICO delivers reliable, cutting-edge products. Supported by skilled engineers, strong technical support, and comprehensive training, INRICO has achieved global success. Committed to meeting diverse customer needs, the company continues to drive the evolution of wireless communication technology worldwide.
